

Our Letter

Our Letter No. 12

July 16, 1987

Open Letter

Colonel Oliver North
c/o United States Marine Corps
Department of Defense, Pentagon
Washington, DC

Dear Colonel North,

Thank you. I want to convey to you my deep appreciation and support for you. Your strides to raise the spirits and morale of freedom loving people around the world have saved lives and are saving lives today. Many in Congress we can see support and love you, too. Many others though, are more interested in the "PROCESS." They approach the situation from a "put down" methodology rather than a "clean it up" approach; get-rid-of solution rather than a get-on-with solution.

Most of us want to help and participate in the cause of freedom. Most of us are very tired of the bad things that are being said about freedom. Most of us are aware that some of our freedoms are being taken from us bit by bit. Most of us are very perplexed and tired of the zealous "firemen" putting water on the **spirit of freedom and freedom loving** people in the name of "protection."

We as citizens know very little about our Congress people, how they work, what they do, their voting records, and what they stand for. We know more about baseball and football players. What we hear and see is the editorialized version by the media. Most people don't know the un-editorialized facts. **As I've seen recently with my own eyes what happens "live" on T.V. is not what is written, reported or editorialized by T.V. commentators, radio reporters or newspaper writers.** Members of the media were caught with their pants down in the early days of your testimony and have corrected their practices only a fraction. But the media may as well be on the planet Venus looking at earth through the thick clouds there. T.V. drama entertainment is now pushing its own agenda in a hurry.

I appreciate the efforts of Congressman Courter and a few other noble Congressmen in Washington for their efforts to let us see the pictures of Nicaragua. Please let us see the pictures of Angola, Afghanistan, Cambodia, the real story of Vietnam, Cuba, Latvia, Ukraine, Czechoslovakia, Hungary, etc., too. Family films hold many concealed truths, too. **The oppression and aggression by evil is being protected by the media elite !**

We want to help in overcoming the bad notions being spread by the invisible bureaucracy in Congress, by the media's invisible bureaucracy and the control of agendas by its own bureaucrats.

THE RIGHT OF THE PEOPLE TO DEFEND THEMSELVES

It appears that the majority of our elected congress people in the House/Senate committee to investigate the IRAN-CONTRA Connection are opposed to supporting Freedom Fighters in the Americas and around the World. Yet they may claim to be supporters. I have also concluded that the Congressional Record generally indicates they do not support freedom and the pursuit of liberty. The majority in Congress oppose deploying S.D.I. and oppose continuity of freedom fighter support. Instead they support uncontrolled spending, uncontrolled regulatory sprawl, bureaucratic cancer and now they talk of higher taxes.

Areas of defense being blocked by the Congressional arm of the Invisible Bureaucracy agendas are: Strategic Defense Initiative - a space and ground based shield against nuclear attack, civil defense

measures for families and communities to build underground shelters in the event of nuclear attack, continued government support of free people and freedom fighters. Some members of Congress are inferring they will block private efforts to support freedom fighters, backed up by threats of imprisonment and death.

Congressional majorities are voting for increased control over U.S. citizens, larger bureaucracies (i.e. I.R.S., E.P.A., Community Development, Department of Education, etc.), reduction of vital defense programs, bloating domestic spending, calling into question private security systems, and increasing regulatory harassment and snafus.

The numerical majority in Congress these days is putting the country into debt unilaterally, restricting business and trade with others, putting excessive emphasis on clean (dirt) environment, restricting energy independence in our own country, restricting monetary independence, protecting bad educational practices of the National Education Association and its monopolistic union controls over our nation's schools, children and alienation of Parents. This present majority in Congress protects its members who support oppressive and killing regimes, protects Soviet puppet states. This same select elite majority protects Gays and AIDS, protects carriers instead of promoting the Public Health. Vast sums of money are going to support forces that Negate FREEDOM while not being counted in the trade figures, (Human Events). (Clear evidence supports this claim also in regards to the Philippines.) Local support of negative forces is protected. Some "responsible" local representatives still claim DEFENSE is not a local concern.

Is Congress EXCEEDING its authority? Are they changing the rules to suit their immediate gratification and agendas? and then not sticking by their own rules. How do we bring them in line with Constitutional Law? Congressman Hyde said it very well about the excesses and law breaking practices of Congress as a body. Congressman McCollum said it very well when he revealed that individual Congressmen are supporting Communixst organizations that have death squads.

History of 200 years ago is repeating itself, but only in part. Thomas Jefferson deplored the vacillating Congress for not supporting its own freedom fighting armies during the American Revolution. After the defeat at Camden, Governor Thomas Jefferson of Virginia had to start again in his preparations. His commitment is noteworthy as evidenced by his personal pleas to Congress for supplies and providing large quantities of "supplies contributed by his Commonwealth." After Camden it was proposed to him that he wait and not send the militia of Virginia south until they were supplied. ***"Jefferson countered with the flat assertion that to wait until they were fully equipped would be to put an entire end to the sending of reinforcements. He sent them on, hoping they would be supplied by Congress.***

"Quite clearly, the major problem was that of equipment, not men. He reported to Washington that the troops who were being collected were unarmed. ... Also, a dangerous spirit of disaffection was discovered in several of the southern counties. Hundreds had gone so far as to take oaths of allegiance to the British King and a time had been set for insurrection", late summer. In early fall "the fire broke out in another county; a dangerous revolt in Pittsylvania was prevented by the seizure of the ringleaders." ... "Disaffection was not general, but Jefferson correctly concluded that something brilliant in the military line was needed to restore the spirits of the people."

At the conclusion of the Revolutionary War Congress balked at paying its debts. The army threatened to take over the government. George Washington responded in his March 15, 1783 "Address to the Officers of the Army". He said in part:

"While I give you these assurances and pledge myself in the most unequivocal manner to exert whatever ability I am possessed of, in your favor, let me entreat you, gentlemen, on your part, not to take any measures which, viewed in the calm light of reason, will lessen the dignity and sully the glory you have hitherto maintained. Let me request you to rely on the plighted faith of your country, and place a full confidence in the purity of the intentions of Congress; that, previous to your dissolution as an Army they will cause all your accounts to be fairly liquidated, as directed in their resolutions, which were published to you two days ago, and that they will adopt the most effectual measures in their power to render ample

justice to you for your faithful and meritorious services. And let me conjure you, in the name of our common country, as you value your own sacred honor, as you respect the rights of humanity, and as you regard the military and national character of America, to express your utmost horror and detestation of the man who wishes, under any specious pretenses, to overturn the liberties of our country, and who wickedly attempts to open the floodgates of civil discord and deluge our rising empire in blood.

*"By thus determining, and thus acting, you will pursue the plain and direct road to the attainment of your wishes. **You will defeat the insidious designs of our enemies, who are compelled to resort from open force to secret artifice.** You will give one more distinguished proof of unexampled patriotism and patient virtue, rising superior to the pressure of the most complicated sufferings; and you will, by the dignity of your conduct, afford occasion for posterity to say, when speaking of the glorious example you have exhibited to mankind, 'had this day been wanting, the world had never seen the last stage of perfection to which human nature is capable of attaining'."*

Congress paid its debts then, but will Congress be able to pay off its debts today or has it guaranteed Civil War. They've made millions dependent; paid millions of Americans to be non-productive; hand outs and restrictions.

ALIENATION AND INVALIDATION, PERSUASION AND CONVERSION

The protection of Not O.K. agendas is not along party lines. Some Democrat and Republican Congressmen have secret agendas to bring down freedom. They are not Communist. There is no such thing. It has more to do with an attitude, a life position decided in childhood; the shrugging off of internal parent (given up) by the "process" of alienation and invalidation, persuasion and conversion over a period of years in early life, through early 20's. This process is sanctioned by "peer" protection of Not O.K. Child activities in those people, encouraging them to give up their individual spirit and desire for liberty and their INTERNAL PARENT, the one that makes self regulation practical and socially workable. They've become slaves.

FREEDOM LOVING COLLEAGUES

We see major efforts under way by "the controllers" in Congress to take away the right of the people to defend themselves. Just last Saturday night I heard Senator Orin Hatch of Utah say "...Privatization should be condemned" He spoke in the context to limiting private groups and individuals from helping people defend or regain their freedoms in other countries. I'm sure the Senator and his freedom loving colleagues will clarify their position and correctly interpret the Constitution and the will of the people.

Congressman Jack Brooks of Texas distorted, slanted, inferred, baited the statements he made. His words were dissected to reveal his agenda. It appears he wants to do away with the Presidency, limit or prohibit private support of freedom fighters, and demoralize liberty loving people. Was he following a script? I noted his snort and licking of his lips. Senator Boren may have been only trying to help when he brought out the supposed revelations by the Miami Herald concerning emergency plans for Martial Law in the event it is needed. Remember Gary Hart's sacrifice by the same newspaper after his visit to the Kremlin and discussions with our most negative viewer, Gorbachev. Congressman Louis Stokes without emotion speaks only of democracy (mob rule?), not of liberty. He speaks about the "diversion" of money, not of his support structure. He speaks about the "PROCESS." Community Development Agencies using Federal \$ are perverting the meaning of DEMOCRACY, interpreting and teaching that it is a process. LIBERTY, individual self regulation and freedom are challenged continually. A year ago Congressman Conyers gave his hate speech to 1,000 people at a NAACP meeting here in Vallejo.

You now hear arguments and proclamations that "McCarthyism" is being revitalized. The fact is there is no such thing. That argument is used SIMPLY to shut off the scream of foul from the free, yet

(1.) Diagram of the personality

Each individual real person has experienced Childhood (Child). Each has the ability to reason (Adult), take in data, store it, compute, think, and then send signals out (Adult behavior). Each one has had someone "en loco parentis" (Parent). This Parent nurtures and disciplines both others and the person himself. **These three parts do not overlap in most healthy clean persons**, eg yourself. There are many in whom the adjacent circles do overlap, eg. would-be crucifiers with vengeance and power lusts (Child based), borrowing plausible reasonableness from their own Adult thinking to mask their own deceit and export-import of oppression and tyranny.

**SELF PROGRAMMED,
SELF REGULATED PERSON**

In the externally programmed person his/her own (family given) Parent values are blocked, wiped out, removed. His Child and Adult are overlapped therefore making justification and confusion easy. **The externally programmed and "Reparented" person lives on the directions of others around him.** "Reparented" means living without the basic guiding values and principles taught in childhood; means guided by expediency, personal lusts and the direction of "committee", "peers" and their suggestions. These negites are lost without their "invisible" support systems. The "Y" in the top circle is to depict a "committee" picture of behavior regulations with its variable values and standards (depending on the committee personnel and its directions to him) as a substitute for authentic, internal, INDIVIDUAL sense of self-regulation and direction (Parent).

(2.) Symbiosis diagram

Three people acting as one. Highly dependent on each other for strokes. Carry out activities together and generally have strong bonds. Groups of five have also been identified as symbiotic in nature. The identified adapted Child (right set of stacked circles) is the performer, the one we see on stage, eg the negite Congressman or Congresswoman who is a member, a unit in the Invisible Bureaucracy.

(3.) Stroking Profile

People have defineable ways of dispensing and receiving strokes touches, words, and gestures of recognition). They (1.) Give OKs, Not OK strokes. They can (2.) Refuse to give positive and/or negative recognition back (their standards) for actions they witness. They (3.) Ask for strokes positive negative from others (by behavior, appearance, words). They (4.) Take personally, positive negative strokes from others.

(4.) Obliques: suggestions, inferences, innuendoes, advertisements within long conversations, duplex transactions, ulterior transactions that speed you up, slow you down, cloud your memory; several things happening at one time, something else on your mind. These obliques can be said for you to overhear, hear off hand, hear second hand, hear around the corner. Can be one visually, by sounds, smells. They are aimed to hook the Parent or Child personality and to disconnect the Adult. Can be done directly, through an associate or through several intermediaries. These are in the ulterior social transactions eg. "Games People Play."

(5.) Rackets diagram

Example of feelings shown in the OK Corral: Grid for What's Happening which can be used in order to blame and coerce the other guy.

- TIREDFNESS
- GUILT
- CONFUSION
- WRATH
- TEARS
- FURY
- DESPERATION
- ANXIETY
- HELPLESSNESS

A racket is a repetitively displayed specialized emotional display with fraudulent, coercive and intimidating qualities which brings about the outward consent of the other person. It lacks authenticity, prevents other emotional displays, it victimizes the other person and it restricts the other person's choices to inaction or avoidance. **Pragmatically a racket is a display of emotion which places a burden on the other person.** In the criminal protection racket the victim purchases protection from the source of danger. The alternative being the ruination of his enterprise.

(6.) Get-on-with outcome as compared to get-rid-of outcome.

Corralogram: each quadrant is an outcome; GNW or Get-nowhere-with can mean putting something in a holding pattern. Shaded areas are dominant activity types, time use, etc. I+ means I am O.K.

U+ means You are O.K.

To minimize ones losses it is sometimes appropriate "to put it on hold" until clear better opportunities for get-on-with exist.

Negites tend to flatter their mark, balloon them but holding onto them until the numerical advantage is so certain that crushing the opposition is guaranteed.

However, good judgment may say its time to cut ones losses short and get-away-from, eg a racketeer in order to get-on-with another program or agenda.

SCRIPT: this newsletter is not intended to be a script, but a roadmap on how to use the diagrams. See also (1.) Bob Naylor open letter dated December 11, 1986; (2.) Our Letter # 10, (3.) Our Letter # 11, (4.) open letter to Assemblyman Don Sebastiani dated October 14, 1985.

**** Events following these letters verify the synchytial nature of the Invisible Bureaucracy. No individual negite stands alone. Each feeling and thought is transfused into many others in this giant circum-global, intimately entwined network. Negites tend to respond, occupy their time and further their efforts to widen their negative influence. Negite influences are attracted to power. They work to surround, influence, obscure, frame, block, and get-rid-of clean people. They eventually expose, piece at a time, their own "influence" in order to disillusion and demoralize the mark (President Nixon?) on the road to gain more control for the Invisible Bureaucracy. **The goal of the Invisible Bureaucracy: total and absolute control of all individuals,** "there shall be no free standing, self-regulating person left on The Planet Earth."

Sincerely,

Franklin "Harry" Ernst III
